Welcome to Our 2012 Mid-Season Buyers' Guide!

American Power Sports, karting's #1 do-it-yourself warehouse for over 30 years, is a major parts distributor for the leading karting manufacturers. We inventory in excess of 10,000 different items, plus we can order many specialty and hard-to-find items. Please visit our website, **www.apskarting.com**, for our complete inventory, current prices, and parts availability.

This buyers' guide shows the most popular items we stock but is by no means our complete inventory. Many specialty items are available on our website, **www.apskarting.com**. Prices shown in this buyers' guide were current at the time it was printed. Unfortunately, due to the rapidly changing prices of raw materials, many manufacturers are constantly adjusting their pricing to us. It is likely that some prices will have changed by the time you receive this buyers' guide. For the most current prices please visit **www.apskarting.com**.

Our phone number for direct order entry, with part numbers only, is 1-800-262-0555. If you do not have part numbers, cannot find what you are looking for, or need assistance in choosing items for your order, please call 1-440-564-8100 for parts information and customer service.

To keep informed of our weekly specials, new products, price changes, or the latest karting information, please make sure that you are signed up for our e-mail newsletters. You can do this by visiting **www.apskarting.com** and entering your e-mail address in the box below "Join the American Power Sports Mailing List."

Our business hours are:

Monday-Thursday, 8:30am-5:00pm Eastern Time
Friday, 8:30am-4:00pm Eastern Time

Orders received by 3:00pm ET, either on the phone or on the web, are guaranteed same-day shipping.

Check out American Power Sports on **www.facebook.com** for technical notes and karting industry news.

As always, thank you for your past and future business.

TOE IN/TOE OUT TOOL

Gone are the days of trying to check the front end toe in and out setting on your kart with a floppy hard to use tape measure. Our tool is a combination of rod and tube which telescopes in and out with a simple thumb screw to hold the measurement.

PART NO.	DESCRIPTION	RACER NET
G4612	Toe In/Toe Out Tool Assembly	**$23.63**

STEEL WHEEL ALIGNMENT DISKS

The disks bolt onto the hubs in place of the tire and wheel assembly allowing you to set toe in and camber with the driver sitting in the chassis. It is very important to have the chassis loaded when making front end adjustments. Adjustments cab be easily gauged with a tape measure, precision rule or a dial indicator inside gauge.

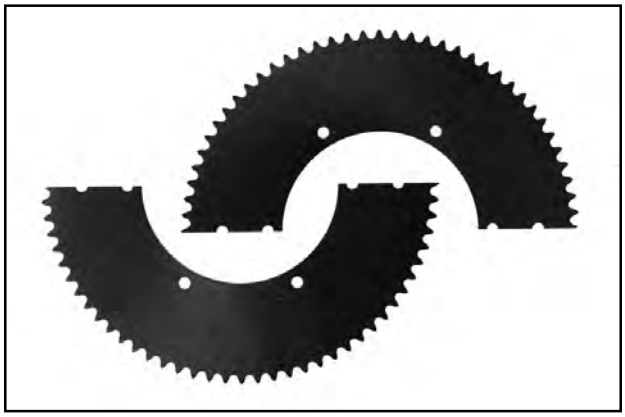
HI-TENSILE ALUMINUM ALLOY SPLIT STYLE SPROCKETS



To determine your chain or sprocket size, measure the distance of the pins on your chain: #219 = 5/16", #35 = 3/8", #40/41 = 1/2"
To determine sprocket diameter, multiply the number of teeth by the following: #219 use .098, #35 use .122, #40/41 use .163

Mounting Pattern:
6 holes on 5 1/4" circle with 4 9/16" center hole

PRC CHAIN GUIDE

Tired of those annoying gear guards that rob your kart of acceleration? By reengineering a piece from the past, PRC has the answer. This newly redesigned PRC Chain Guide mounts neatly and cleanly to the underside of the renowned Mega Mount, as well as other similar mounts, instead of to the frame. This allows the guide to travel with the motor instead of being separate. Also, this moves the guide block itself closer to the rear sprocket, which reduces the chance for the chain running off of the sprocket.
No modifications are required for installation. Simply bolt it on, run your chain through it, and align it up. Comes with multi holes to allow use on 7-degree or 15-degree mounts. PRC Floating Gear Hub(part# AP5020). Will work with 35 or 219 chain.

EK KART CHAIN

EK SPACE CHAIN

(Super Spaced) we refer to as the spaces between the inner and outer chain plates that reduces friction and promotes easier and better lube penetration. Friction is further reduced because the side plates do not touch each other. Chain runs cleaner because dirt and grime are flung off the spaced out links. The biggest advancement in karting since the introduction of the side winder kart. Our chain will out last all others. It will not kink. It's been run in one hour enduro without oil. The long life and outstanding performance will more than compensate for the price. The leading sprocket manufacturer is now recommending Super Spaced Chain.

The durometer readings below are taken with a lab grade durometer at 70F with 20 psi in the tire.
B55A / SS-55 = 62-64
B44A = 54-56
SS-33A = 50-52
SS-22 = 42-44
SS-11 = 32-34

Below is a general idea as to what to use the various compounds on.
SS-11 = track that is wet and carries moisture through the night
SS-22 = track that has a fair amount of mooisture but is not "wet"
SS-33A = track that has minimal moisture and is transitioning to dry
B33A = fits between SS-22 and SS-33
B44A = track that has begun to dry but is not exceptionally abrasive
B55A = dry track that is moderately to very abrasive

FORMULA V TRACTION TREATMENT

...Is a patented chemical product designed to bring back and maintain the original softness of race tires.

It is a chemical treatment, not a glue or adhesive, that extends the life of tires by allowing the use of full tire depth.

FORMULA V chemically reacts with rubber to soften, replenish and revitalize the tire from its natural tendency to dry and harden.

The treatment is applied during the week prior to race day, which eliminates any hassle at the race track.

BURRIS 4-CYCLE MOUNT SYSTEM

We incorporated the lateral slide feature into the mount to make it extremely easy to move the engine left to right by loosening the 3 flange nuts allowing the user to easily optimize weight distribution and chassis set up. The pressed in bolts have been replaced with a flat head allen bolts for exacting alignment and ease of changing the bolt position in the top plate when necessary. The new extrusion not only lowers the engine and center of gravity , it has been thinned in the noncritical areas and machined to reduce the overall weight, bringing the complete unit in at a slim 3.1 lbs. In addition, the mounts have been anodized gold and laser etched to give a distinct finish.

Burris Racing's Replacement Pistons & Rings for the Briggs Animal*

Approved by WKA, IKF, AKRA and BNSS

The Burris pistons are available in a wide range of sizes starting at +.002" and going through +.035" including the half sixes to allow for more rebuilds and extending the life of the engine. The Burris pistons are manufactured with a high silicon alloy to control expansion and reduce friction in the bore to maintain maximum performance levels. The piston sets come complete with piston, rings, clips and wrist pin.

Burris rings are available as a set (compression, scraper and oil ring) as well as the compression rings being available individually. As with all Burris piston rings, these are produced with the highest quality materials and giving the engine builder a quality piece to produce consistent horsepower.

BRIGGS & STRATTON INSPECTION PLATE

With today's new cams (fast ramp) for the stock classes or when you move up to a Super Stock, Limited Modified or Open Classes there are clearance problems inside of the Engine that have to be taken care of. All moving parts must have enough clearance to rotate without hitting each other.

Install the inspection plate as you would the side cover. Turn the engine over slowly and observe where the rod may hit the block or the cam and if the lifters are bottoming out at maximum lift of the camshaft. Take care and clearance the parts as per the recommendations of the manufacturer of the after market part.

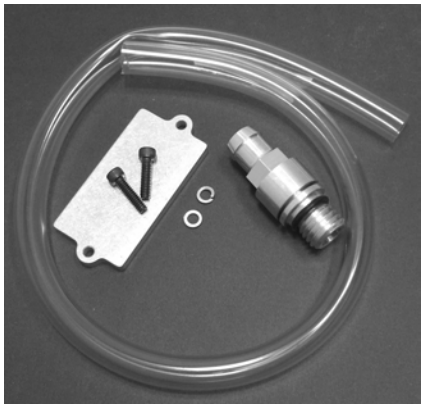
E.C. PCV KIT

(Positive crank case vent kit)
BRIGGS & STRATTON



Blowing side cover gaskets and crank seals, plus losing oil into the catch can has been a problem that all racers have had to face. Now this is a problem that has been solved with the design of the E.C. PCV Kit which pulls a vacuum on the bottom end which keeps the oil in the engine and eliminates side cover gasket and crank seal failure. This kit requires no machining to install.

RLV FLAT HEAD BRIGGS CURVED HEADERS

RLV 4-Cycle Curved Headers

RLV 4- Cycle Curved Headers for Silencers (no washers) are large volume and longer for added low end torque. The curved design adds to the power at torque peak and keeps them inside the rear bumper.

When selecting a pipe please use the following information as a guide:
Longer Length=more bottom end / Larger Diameter=more top end
Shorter Length=more top end / Smaller Diameter=more bottom end

RLV ENVIRO-SAFE 4-CYCLE SILENCERS

RLV Enviro Safe 4-cycle silencers are WKA legal and IKF approved. These silencers were designed to reduce the noise (4 dB to 6 dB) and backfire of the 4-cycle engine, not the horsepower. We were able to accomplish this for all Briggs classes except the Modified and Open. At the prompting of the karter, WKA mandated that we keep the noise reduction, but increase the performance of the Modified and Open silencer. With the advice and testing of many new kart shops and individuals, we are pleased to offer the ***RLV B91MO*** designed specifically for Modified and Open engines. (WKA legal).

ROBERTSON NON-MUFFLED TORQUE TUBES

TORQUE TUBES WILL PULL YOU OUT OF A CORNER LIKE A FREIGHT TRAIN

TORQUE TUBES are the result of extensive track research and dyno testing. TORQUE TUBES build great power and spread the power over a wide RPM band to give you maximum performance. In most cases they will allow you to drop one or two teeth on the rear sprocket with no reduction in RPM because of the additional RAM effect these unique staged pipes produce.

PART #	MODEL	DESCRIPTION	RACER NET
AP2474	98-S	Broad power for Stock	$38.85
AP1747	LM-T	Triple stage for Ltd. Mod. classes (8200 RPM - 9200 RPM). *(Super Stock also).*	38.85

NORAM GE ULTIMATE CLUTCH

Alternate shoe configurations and variable torque settings dramatically decrease clutch slippage. Replaceable sprockets help eliminate frequent and costly drum replacement. The stamped drum features venting holes for cooler operation and consistency. Thrust bearings between the drive hub and drum for less drag. High tech linings provide maximum coefficient of friction.

Due to the extreme conditions that clutches are operated under there are
NO EXPRESS OR IMPLIED WARRANTIES ON CLUTCHES.

DRAGGIN SKIN CLUTCH

The "Draggin Skin" clutch is for avid four cycle racers who want consistency in engagement along with ease and flexibility in tuning the clutch to fit their track. The engagement of the clutch can be varied from 2,200 to 5,500 rpm by varying spring ring combinations. A floating spring design and a phenolic resin bonded non-asbestos friction material with insulating properties utilized on the shoes minimizes heat transfer, enhancing the life of the springs.

The standard kit comes with three (3) interchangeable sprockets (13, 14, 15) as well as 4 sets of nine (9) springs each. Additional interchangeable sprockets are available up to 22 teeth. The "Draggin Skin" is supported by a racing staff, which constantly evaluates and improves this new product.

The **400 Series** has built in staying power. Almost 3 3/4 square inches of steel friction material engagement shoe surface assures positive pulling power as long as the RPM is in the full contact range. Available for #35 and #40/41 chain sizes for 1" PTO shafts 8hp MAX.
WARNING: Clutch failure will result from improper final drive ratio (for every tooth on the clutch sprocket there should be 6 teeth on the rear sprocket-example a 12 tooth #35 chain should have a 72 teeth rear sprocket and a 10 tooth #41/420 or # 40 clutch would have a 60 teeth minimum rear sprocket).
A single clutch system is only recommended for a tire diameter of 12" and below.
A CRANKSHAFT RETAINING BOLT (NOT INCLUDED) IS REQUIRED FOR HOLDING THIS CLUTCH ON THE CRANKSHAFT.
Due to the extreme conditions that clutches are operated under there are NO EXPRESS OR IMPLIED WARRANTIES ON CLUTCHES.

OUTERWEARS FUEL FUNNEL PRE-FILTER

Outerwears Pre-Filter Fuel Filter is manufactured from the same durable polyester material as the Outerwears Pre-Filter and will sift out even more particles than stock screen that comes with a fuel funnel. Stops gas can rust, sand, dirt, or other debris before it has a chance to clog the fuel filter. The most unique feature of this funnel pre-filter is, that once saturated with gasoline it will not let water that has gotten into your gas can, through to your tank.

PART NO.	DESCRIPTION	RACER NET
4MCFF2825T	Fuel funnel with pre-filter 6 qt.	$14.96
4MFF2825T	Pre-Filter Only 6 qt.	11.21

AP1711	Air box rubber connector	**9.64**
AP1699	Rain Hood	**11.57**

*Note: The rubber air box connecting boot is removable and reversible. One end is straight and the other end is angled. Cut off the end not used to increase air flow.
**Note: This filter is easily used in any air box. Remove the rubber connector at the carb end of the box and snap the filter into the existing groove. The air box plastic body should not be allowed to rotate or spin on the rubber connector. The rotating may tear the rubber boot. Use an RLV air box mount or affix the box so it will not rotate. Filters must be oiled to work properly and unoiled filter is no filter at all.

MY4B2TEWA	TACH/EGT/WATER (AMBER DISPLAY)	463.91

The introduction of the new MyChron4 brings with itself a new way of showing the most important information acquired in test sessions, races and analysis sitting: RPM, Temperatures and Laptime. We've stepped up our technology with a pixel-based **graphical display** that easily shows large, easy to read numbers (like exhaust temps), sharp, detailed histograms and graphs (like torque curves), even graphics (like team logos).Get more from your MyChron4 without the need to connect to a laptop, as you view power curves and RPM histograms right on the display. Replay your entire racing session as soon as you get off the track.

There's more to the MyChron4 than just a pretty face.

Check out these advanced features:

- Two configurable Alarm Leds
- Configurable shift led
- Intuitive menu design for easy configuration
- Automatic start
- Long battery life (up to 200 hours with an internal 9V battery)
- 1 MB memory

MYCHRON 4 "Gold" E-Box

The optional MyChron4 E-Box enables you to collect even more data, satisfying even advanced data acquisition junkies. The E-Box has four inputs, providing:- Speed- 2 Temperatures- RPM An internal accelerometer (G-sensor) allows you to create a track map on your PC, giving you a complete look at kart and driver performance. Pick a spot on the track and immediately see speed, temps, RPM and more.See which line gave the fastest lap time.

DIRECT PARTS ORDER ENTRY

To give our customers faster and more efficient service, we have programmed our computer and trained our telephone operators to enter orders directly into our computer system. This enables our telephone operators to check stock and current pricing for you immediately as you order. To take advantage of our Direct Order Entry Service, please use the following steps when ordering:

(1) Call our Toll Free Direct Order Entry Line
(2) Give the operator your assigned Customer Number. The operator will then verify your shipping address. New customers please see below.
(3) Tell the operator if you would like your order shipped Ground or Special Service and state how you would like to pay for the order: **Certified check or money order,** VISA, MasterCard, Discover or American Express.
(4) Give the operator ***THE PART NUMBER YOU WISH TO ORDER FIRST*** and then the quantity you need. The operator will then verify availability and current pricing.

If you are a new customer and have all your part numbers, please call our Toll Free Direct Order Line and tell the operator this is your first order. They will then assign you your American Power Sports Customer Number and take your order.

PARTS INFORMATION AND CUSTOMER SERVICE If you do not have part numbers, or have questions about parts applications, please call our Parts Information/Customer Service Number (1-440-564-8100). If you have a problem with an order, need to check when an order was shipped, or have other questions concerning your order, please call our Parts Information/Customer Service Number (1-440-564-8100). **Our Direct Order Operators do not have the information available to properly assist you with Parts or Customer Service Questions.**

ADD-ONS OR CHANGES TO AN ORDER Because of the speed of our direct order entry system, it is **not** possible to add-on to, cancel, or change an order once it has been placed. All calls to add-on to an order will be treated as a separate order and are subject to our normal ordering policies and terms.

TO AVOID ADDITIONAL SHIPPING & HANDLING CHARGES, PLEASE MAKE SURE YOUR ORDER IS COMPLETE BEFORE CALLING OUR ORDER LINE.

FOREIGN ORDERS Orders being shipped to points other than the United States, Canada, or Puerto Rico must be Paid in Advance in U.S. funds with a money order or certified check (Sorry no credit cards). Minimum order for shipment is $500.00.

All rights reserved. Reproduction of this catalog in whole or part without written permission is prohibited by law.

BACK ORDERS Items that we do not have in stock at the time your order is shipped can be placed on back order at the customers request.. All back orders are cancelled after 30 days. (Sorry, no COD backorders). Customer is responsible for shipping charges on the original order only. Backorders will be shipped **freight free** unless the backordered item or items are the only item or items on the initial order.

RETURNS You may return any unused item within 30 DAYS of purchase. NO Return Authorization is needed but the return must be made WITHIN 30 DAYS of the invoice date. Simply return the item with a copy of the invoice and a brief note explaining the reason for the return. Please include a daytime phone number on the note in case there are any questions concerning your return. Items must be returned in NEW or UNUSED condition. Please take care to properly package the item so that it will not be damaged in shipment. Items damaged during return shipping due to improper packaging will NOT be accepted. American Power Sports reserves the right to refuse any item for return. If you have any questions about returning an item please call Customer Service at 440-564-8100.

Returns can only be processed as a credit to the credit card used on the original purchase invoice. If you need to reorder a replacement item please call the order in to 800-262-0555 or place the order on-line at **www.apsorderonline.com.**

Return shipping address: American Power Sports 12300 Kinsman Rd, PO Box 299, Newbury, OH 44065

Please Note: If returning an item via US Mail please make sure the PO Box is included on the shipping address.

If you have any questions regarding a return contact our ***Customer Service Department at (440) 564-8100.***
IMPORTANT: All items must be returned complete as shipped. A partial return will delay processing of your return.

SHIPPING CHARGES All shipping charges are the customer's responsibility.

COD CHARGES All orders being sent COD are subject to an additional COD fee.

REFUSED SHIPMENTS A $20.00 Service Charge plus shipping charges will be added to all accounts when a shipment is refused. ***All refused shipment charges must be paid in full before any future orders can be shipped.***

SALES TAX Sales tax will be added to all orders shipped within Ohio.

PAYMENT TERMS All orders will be shipped certified check or money order, or you may charge to your ***VISA, MasterCard, Discover or American Express.*** Because we do not have the expense of collecting bad checks or overdue accounts, we are able to keep our prices as low as possible.

VISA, MASTERCARD, DISCOVER or AMERICAN EXPRESS ORDERS Orders being charged to a credit card, must be placed by the card holder and can only be shipped to the card holder's Billing Address or place of employment. Credit card orders cannot be shipped to any other person. Please have your card number and expiration date ready when placing an order.

PRICES, POLICIES & TERMS All prices, policies and terms are subject to change without notice.

PRICING POLICY Our policy is to provide quality products at low Racer Net prices. The printed prices were the current prices at the time of printing and we will make every effort to hold these prices. We will only increase prices when our suppliers increase prices to us.

WARRANTIES AND GUARANTEES American Power Sports does not guarantee the items sold by us or warranty the merchantability and fitness of purpose. Manufacturers supply their own warranties and guarantees and most of them do not permit us to make any adjustment, replace any part or accept for return or exchange any defective or unsatisfactory item. ***Please follow the warranty or guarantee instructions provided by the manufacturer.*** Any damages arising from the design or manufacturing of any item is the sole responsibility of the manufacturer.
